

COMATEL AND PEJ PRESENTED THE MULTILINER MACHINES IN BARCELONA

Fidel Molina and Ramon Rojo, on behalf of the Comatel Group, and Pepe Valls and Jose Manuel Rojo as spokesmen for the Catalan commercial company PEJ (Productos Electronicos de Juego), showed different Multiliner models from the prestigious Austrian manufacturer Amatic to Catalan companies on 22nd January. In addition, the presentation was held at the Moritz Brewery, a place full of tradition and charm located in the heart of Barcelona where attendees had the opportunity to visit its facilities.

The people who attended the event witnessed three products that fit perfectly in the Catalan market and on which they can make the most of their performance: the MultiLiner X3000, X4000, V24 Bar € and V24 Bar "fichas" which are already approved in the Catalan community. The attractiveness of these machines lies in the quality of their components and their graphics as well as their versatility due to the wide variety of games available, including slots and roulette, appearing in game configurations, with credits and "fichas" game.

The explanation on the operation of the MultiLiner machines was carried out by PEJ and took place in a very pleasant environment where the attendees, Comatel Management and the speakers left aside the commercial nature of the event to make way for a more informal meeting among colleagues of the industry. Fidel Molina pointed out that they were summoned to share something different and to inform them that they had at their disposal some magnificent models.

NEWS IN PASTÓN

The new brand Pastón.es starts the year by opening Free Spins for its slots. These consist of free spins that return the balance to the player for a specific slot, and it is a powerful marketing tool for the operators.

Pastón launched the most romantic promotion of the year, its Valentine's promo, to celebrate the launch of the Free Spins. Players could win up to 60 Free Spins from 11th to 14th February. Besides this, Pastón is working with different providers to integrate more and more casino games to its online offer.

Pastón online betting shop will be present at the International Gaming Show with Comatel at its stand C6 in Hall 3 to show its novelties. Also, in his exhibition they will give room to the land-based sports betting for Hostelry and Arcades sites. It is a new adventure that Pastón puts in place looking for synergies between the online and land-based channels in order to offer more options to all its clients on both platforms. The land-based project is very advanced, and soon the license will be requested to the Generalitat Valenciana with a total of 700 sale points at the time of the launch.

COMATEL DISEMBARKED AT ICE LONDON

The Comatel Group was present at the ICE Totally Gaming fair in London on 5th, 6th and 7th February where more than 600 exhibitors participated in a space of 52,000 m². Every year leading companies in the industry come together in this top event in the industry comparable to G2E in Las Vegas.

This year the Comatel Group together with Amatic have presented great innovations that will provide greater product diversity for both Arcades and Hostelry. Specifically, an unprecedented model for the Spanish market which you can play roulette with Jackpot with and Multiliner C24 multiplayer machine from the Austrian manufacturer Amatic with its new cabinet.

In addition, the Comatel Group has taken advantage of this opportunity, as it has been doing for years, to serve its customers and learn first-hand about the latest developments and where the industry is headed.

THE COMATEL GROUP EXHIBITS AT THE INTERNATIONAL GAMING SHOW

The Comatel Group will once again participate as exhibitor in the 37th edition of the International Gaming Show on 9th and 10th April at Ifema in Madrid. The event offers a showcase for manufacturers and suppliers throughout the gaming industry to present their novelties and also as a meeting point where to establish synergies on the vanguard of the industry.

Comatel booth is number C6, located in Hall 3, and has a space of about 700m2 where all the attendees can witness the most outstanding models and with greater potential such as: Multiliner V24 machines, Multiliner Bar, Multiliner Twin, Multiliner C24 Black Edition, in addition to the Performer Grand Arc with three screens and the Roulette Grand Jeu 24 HX and HD with JackPot by Amatic. Besides this, new models for Hostelry will be presented which will exceed any competitive model of the market.

All at Comatel team hope that you will come to a new appointment at its stand C6 of the International Gaming Show on 9th and 10th April where we will have surprises.
