HOMOLOGATED 22 AND 24 INCHES ROULETTES WITH RECYCLERS

In Comatel we continue working to offer the best gaming machines to all our customers, for that reason, we have already achieved that the 22 and 24 inches roulettes with recyclers are homologated and that they also include recyclers of 70 notes of "real" mixed denomination , the SMART Payout, able to store all the denominations of a certain currency.

These recyclers maximize the efficiency of cash management, prevent the emptying of coins, and reduce the level of coins required and the workload of the room attendants in the gaming arcades.

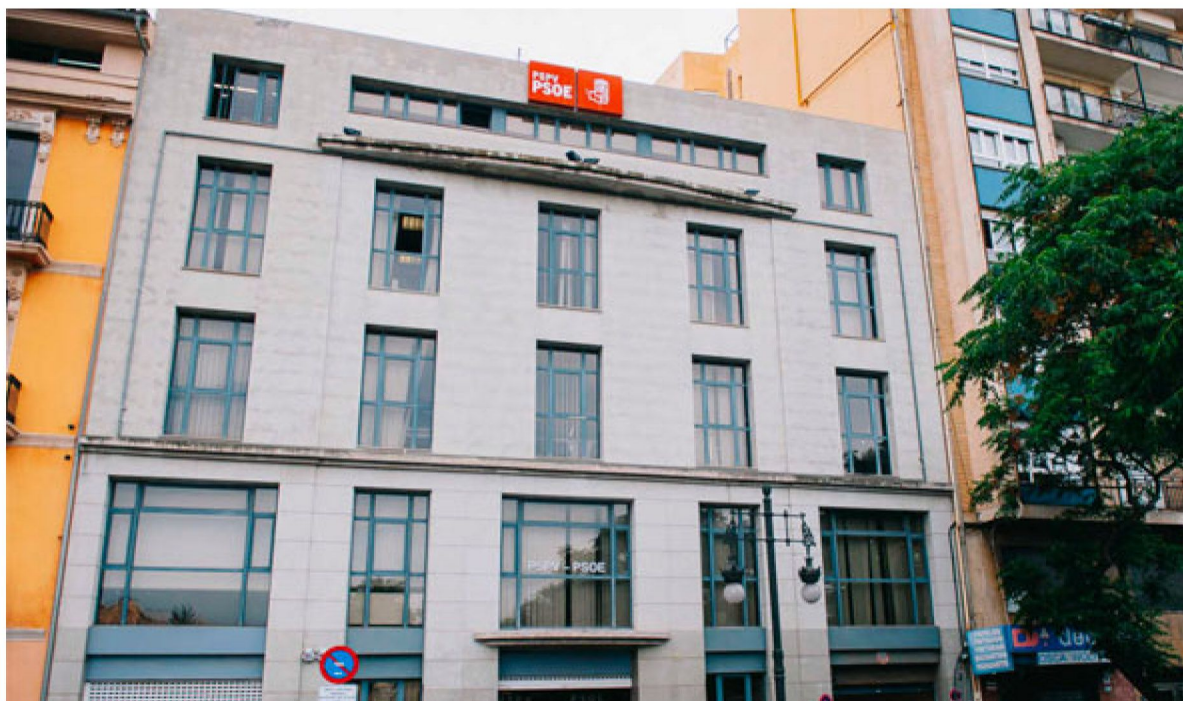

We continue to add value to the world of leisure and amusement with better gaming machines that respond to the needs of our customers and the market.

This year Comatel has closed the purchase of the headquarters of PSOE-PSPV (socialist political party) in Blanquerias Street, in the historic centre of the city. The inauguration of the new hotel is scheduled for the summer of 2019 and will offer employment to 44 people.
